INDEPENDENT AUDITORS REPORT

The Honorable President Members of the Board of Directors Winfield Fire Protection District Winfield, IL

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Winfield Fire Protection District, as of and for the year ended April 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Winfield Fire Protection District, Winfield, Illinois, as of April 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3-11) and budgetary comparison information (beginning on page 37) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Winfield Fire Protection District, basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

As the management of Winfield Fire Protection District ("the District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended April 30, 2013. We encourage readers to consider the information presented here in conjunction with the District's financial statements (beginning on page 12).

The discussion and analysis is designed to: (1) assist the readers in focusing on significant financial issues, (2) provide an overview of the District's financial activities, (3) identify changes in the District's financial position (its ability to address the next and subsequent years challenges), (4) identify any material deviations from the financial plan (the approved budget) and (5) identify individual fund issues or concerns.

Historically, the primary focus of local government financial statements has been summarized funds types on a current financial resource basis. Due to the requirement of Government Accounting Standards Board Statement No. 34, beginning in 2003 this approach was modified so that now the District's financial statements present two kinds of statements, each with a different snapshot of the District's finances. The focus of the new financial statements are on both the District as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major funds) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the District's accountability.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in its Statement No. 34 "Basic Financial Statements and Management's Discussion and Analysis, for State and Local Governments" issued June 1999. Certain comparative information between the current and prior year is required to be presented in the MD&A.

Since the MD&A is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the District's financial statements beginning on page 12.

Financial Highlights

The District's assets exceed its liabilities at April 30, 2013, the close of the most recent fiscal year, by \$3,924,401, which includes \$1,326,349 invested in capital assets, \$1,472,152 reserved for buildings & equipment, leaving \$1,125,902 to be used for the District's ongoing obligations to its citizens.

The District's total net position increased by \$134,680.

As of April 30, 2013 the District's governmental funds reported combined ending fund balances of \$3,025,941, an increase of \$370,128. Of this amount the general fund had an ending fund balance of \$1,521,562 (unassigned); special revenue funds had an ending fund balance of \$32,227; and capital projects fund had an ending fund balance of 1,472,152.

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Overview of the Financial Statements

This discussion is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of District finances, in a manner similar to a private-sector business and are reported using the accrual basis of accounting and economic resources measurement focus.

The statement of net position presents information on all District assets and liabilities, with the difference between the two reported as net position. Over time, the increase or decrease in net position may serve as a useful indicator of whether or not the District's financial position is improving.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and unpaid obligations).

The government-wide financial statement distinguishes District functions that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities reflected the District's basic services including fire, ambulance and other administrative functions.

The following Table 1 reflects the condensed Statement of Net Position for the District as of April 30, 2013. Table 2 reflects a condensed Statement of Activities for the year ended April 30, 2013.

The government-wide financial statements are presented on page 12 - 13 of this report.

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Government-Wide Financial Analysis

As noted earlier, assets may serve over time as a useful indicator of the District's financial position. In the District's case, assets exceeded liabilities by \$3,924,401 at April 30, 2013.

A substantial portion of the District's assets reflect its investment in capital assets (e.g. land, buildings & equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its citizens; consequently these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Total revenues were \$2,827,723 while the expenditures totaled \$2,693,043 resulting in an increase of \$134,680 in net position.

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Normal Impact on the Districts Revenue & Expenses

Revenues:

Economic condition - this can reflect a declining, stable or growing economic environment and has a direct impact on property taxes, state replacement income tax, etc.

Changing patterns in intergovernmental and grant revenue - while certain recurring revenue (state shared revenue, etc) may experience significant changes due to the economic environment, non-recurring or one-time grants are less predictable and often distort their impact on year-to-year comparison.

Market impacts on investment income - market conditions may cause investment income to fluctuate.

Expenses:

Changes in authorized personnel - change in service demands may cause the District to change staffing levels. Personnel costs are a significant operating cost for the District.

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other units of government, uses fund accounting to ensure compliance with finance-related legal requirements. All of the District's funds are governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. All of the District's services are reported in governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for use. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate comparison between government funds and government activities.

The District maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance for the Corporate Fund, Ambulance Fund, Capital Projects Fund and Special Revenue Funds. Data from the Special Revenue Funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and individual schedules elsewhere in the report.

Basic governmental fund financial statements are presented on pages 14 - 17 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 20 of this report.

Other Information

In addition to these basic financial statements and accompanying notes, this report also presents supplementary information concerning the District's progress in funding its obligations to provide pension benefits to its employees. This information can be found beginning on page 35 of this report.

Major funds are reported in the basic financial statements as discussed. Combing and/or individual statements and schedules are presented in a subsequent section of this report beginning on page 37 of this report.

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Financial Analysis of the District's Funds

Changes in Fund Balance - Governmental Funds

Governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$3,025,941. Of this year-end total, the general fund reported a fund balance of \$1,521,562.

The following is a summary of changes in fund balances for the year ended April 30, 2013:

Governmental Funds	Fund Balance Apr. 30, 2012	Increase (Decrease)	Fund Balance Apr. 30, 2013
General Audit Fund Tort Liability Fund Workers Compensation Fund Capital Projects Fund	\$ 1,283,453 8,423 14,008 12,133 1,337,796	\$ 238,109 208 (1,273) (1,272) 134,356	\$ 1,521,562 8,631 12,735 10,861 1,472,152
	\$ 2,655,813	\$ 370,128	\$ 3,025,941

Major Governmental Funds - Annual Budget

The District reports the Corporate Fund and the Ambulance Fund as major governmental funds. The following is a table summarizing the District's fiscal year 2012/2013 budget for these funds. More detailed information on the budget process can be found in Note 1 of the financial statements.

	<u>Original</u> <u>Budget</u>	<u>Final</u> Budget	<u>Actual</u>
General Fund Revenue Expenditures	\$ 2,745,990 2,618,175	\$ 2,745,990 2,618,175	\$ 2,759,937 2,398,828
Excess (Deficit) of Revenue over Expenditures	127,815	127,815	361,109
Operaing Transers - Out	(123,000)	(123,000)	(123,000)
Excess (Deficit)	\$ 4,815	\$ 4,815	\$ 238,109

Winfield, Illinois Management's Discussion and Analysis For the Year Ended April 30, 2013

Capital Assets

The District's investment in capital assets, net of accumulated depreciation for governmental activities as of April 30, 2013 was \$1,326,348. The net decrease in capital assets was \$170,521. Depreciation expense was \$170,521. Additional information on the District's investment in capital assets can be found in Note 5 of the financial statements.

The following is a summary of capital assets, net of accumulated depreciation:

		April 30,		
		2012		2013
Land Building & Improvements Machinery & Equipment Vehicles	\$	74,333 689,354 362,301 1,597,527	\$	74,333 689,354 353,180 1,597,527
Cost of capital assets	:	2,723,515		2,714,394
Less accumulated depreciation	(1,226,646)	_	(1,388,046)
Net capital assets	\$	1,496,869	\$	1,326,348

Outstanding Debt

As of April 30, 2013, the District had no outstanding debt.

Economic Factors in Next Year's Budget and Rates

The District is tax bases is primarily residential (94%). The primary source of revenue is property taxes (74%) and charge for services (23%). The Property Tax Extension Limitation Law ("PTELL"), which, in general limits the amount of taxes to be extended to the lessor of 5% or the percentage increase in the consumer price index for the preceding tax levy. For 2013 the CIP index is 1.50%

Budgeted revenue for fiscal year 2013/2014 is \$2,854,162.

Budgeted expenditures for fiscal year 2013/2014 is \$3,480,996 of which \$750,500 is for capital expenditures. The remaining is for salaries and benefits, insurance, operating expenses, administrative and miscellaneous expenditures.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance related laws and regulations and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, please contact the District at 27W530 High Lake Road, Winfield, IL 60190.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Winfield Fire Protection District (the "District") is a municipal corporation of the State of Illinois headquartered in the County of DuPage and duly chartered pursuant to the Illinois Fire Protection District Act 70 ILSC 705.

The Winfield Fire Protection District covers the city of Winfield and unincorporated areas within DuPage County. The District provides both fire and emergency medical service to the residents of this area. In addition, the District has ongoing fire inspection and fire education programs and offers education in CPR and other medical topics along with a blood pressure screening program.

A. Reporting Entity

The District follows the provision of Governmental Accounting Standards Board Statement No. 39, "Determining Whether Certain Organizations Are Component Units - an amendment of GASB Statement No. 14". As defined by generally accepted accounting principles established by GASB, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate, tax-exempt entities and meet all of the following criteria:

- 1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.
- 2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

The District has concluded that the Firefighter's Pension Trust Fund meets the criteria of Statement No. 39 for inclusion as a blended component unit. Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the District's Board or the component unit and provides services entirely to the District. The Fire District is not required to be included as a component unit of any other entity.

B. Basis of Presentation

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The District does not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges to residents who purchase, use or directly benefit from goods, services, or privileges provided by a given function, and grants and contributions that are restricted to meeting the operational and capital requirements of a particular function. Taxes and other income items that are not specifically related to a function are reported as general revenues.

FUND FINANCIAL STATEMENTS

Fund financial statements of the reporting entity are organized into individual funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, funds equity, revenues and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrative compliance with finance-related legal and contractual provisions.

Funds are organized as major funds or non-major funds within the governmental statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental funds are at least ten percent of the corresponding total for all funds of that category or type, and
- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund are at least five percent of the corresponding total for all governmental funds combined.

The District reports the following major governmental funds:

The General Fund Capital Projects

The District reports the following non-major governmental funds:

Worker's Compensation Fund Tort Liability Fund Audit Fund

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

Governmental Funds (Governmental Activities)

Governmental fund types are those through which most governmental functions of the District are financed. The District's expendable financial resources are accounted for through governmental funds. The measurement focus is based upon determination of changes in financial position rather than upon net income determination. A brief explanation of the District's governmental funds follows:

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required, legally or by sound financial management, to be accounted for in another fund.

Funds included in this fund category are:

Ambulance Fire Protection

Capital Projects Fund

The Capital Projects Fund accounts for monies held by the District for capital projects and acquisition and/or replacement of equipment.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than capital projects) that are legally restricted to expenditures for specific purposes.

Funds included in this fund category are:

Liability Insurance Worker's Compensation Insurance Audit

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individual, private organizations, other governments, or other funds. The District considers the Firefighter's Pension Trust Fund a Fiduciary Fund.

Blended Component Units

Firefighter's Pension Trust Fund - The District considers the Firefighter's Pension Trust a blended component unit, and reports this as fiduciary fund in the financial statements.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement of focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or the economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The current financial resources measurement focus and the modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available to finance the District's operations. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Property taxes, investment earnings, and charges for services are the primary revenue sources susceptible to accrual. The District considers property taxes available if they are due and collected within 60 days after year end. All other revenues are recognized when the cash is received. Expenditures are recorded when the related fund liability is incurred.

The District reports deferred revenues on its Governmental Funds Balance Sheet. For governmental funds financial statements, deferred revenues occur when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District, before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the Governmental Funds Balance Sheet and revenue is recognized accordingly.

The Firefighter's Pension Trust Fund, a blended component and Fiduciary Fund Type, is accounted for using the accrual basis of accounting. Its revenues are recognized when they are earned and its expenses are recognized when they are incurred.

D. Measurement Focus

On the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus, which means all assets and liabilities (whether current or non-current) are included of the Statement of Net Position and the Statement of Activities presents increases and decreases in net total position.

The measurement focus incorporates the current financial resources concept. Under this concept, sources and uses of financial resources, including capital outlays, debt proceeds and debt retirements are reflected in operations. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or a reservation of fund equity. Liabilities for claims, judgements, compensated absences and pension contributions, which will not be currently liquidated using expendable available financial resources are included as liabilities in the government-wide financial statements, but are excluded from fund financial statements. The related expenditures are recognized in the fund financial statements when the liabilities are liquidated. Historically, the expenditures have been recorded to the general and special revenue funds.

The Firefighter's Pension Trust Fund is accounted for on a capital maintenance measurement focus. This means that all liabilities (whether current or non-current) associated with their activity are included on the balance sheets.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

Prior to April 1, the Fire Chief submits to the Board of Trustees a tentative operating budget for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.

The working budget is then approved by the Board and adopted by May 1. The Board holds public hearings to solicit comments and may add to, subtract from, or change appropriations, but may not change the form of the budget. Prior to August 31, the final budget is passed by an appropriation ordinance. The tax levy ordinance is filed with the County Clerk by the last Tuesday in December to obtain tax revenue.

The Board of Trustees must approve all formal appropriation transfers. Any increases to the final budget require a public hearing before the Board of Trustees' approval. No formal supplemental appropriation was made during the fiscal year. The Fire Chief can approve expenditures that exceed any line item of departmental expenditures of a fund as long as the expenditures do not exceed the appropriation. Thus, the legal level of budgetary control is determined by fund.

The legal budgetary authority lapses at the end of the fiscal year.

The budget amounts shown in the financial statements are those originally adopted, and in accordance with US generally accepted accounting pronciples, as there were no amendments during the fiscal year. However there were line item transfers in accordance with State Statute.

F. Investments

All investments are stated at fair value, which is the market value as determined by published reports of such values.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Due to/from Other Funds

Activity between funds that is representative of lending/borrowing arrangments outstanding at the end of the fiscal year are referred to as either "due to/from other funds".

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets

GOVERNMENT-WIDE FINANCIAL STATEMENTS

In the government-wide financial statements, the District has adopted a capitalization threshold of \$2,500 for equipment, vehicles and furnishings and \$10,000 for buildings and improvements for capital asset additions. All capital assets are valued at historical cost, or estimated historical cost if actual cost is unavailable. Donated capital assets are stated at their fair market value as of the date donated.

Prior to the adoption of GASB 34, capital assets of governmental funds were accounted for in the general fixed assets account group and were not recorded directly as a part of any individual fund's financial statement. Infrastructure of governmental funds was not previously capitalized. Upon implementing GASB 34, governmental units are required to account for all capital assets, including infrastructure, in the government wide financial statements prospectively from the date of implementation. Retroactive reporting of all major general infrastructure assets is currently encouraged, but not required.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of assets is as follows:

Buildings 40 years
Machinery and Equipment 7 to 10 years
Vehicles 7 to 10 years

FUND FINANCIAL STATEMENTS

In the fund financial statements, assets used in governmental fund operations are accounted for as capital outlays in the fund from which the expenditure was made.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

J. Accumulated Vacation and Sick Pay

All full-time employees earn vacation benefits in varying annual amounts. All vacation leave to which an employee is entitled must be taken within one year of the employment anniversary date. The Fire Chief must approve any deviation from this policy. Therefore, unused vacation pay of \$83,522 is expected to be available from resources and is recorded as an accrued liability in the appropriate general fund account.

Sick leave shall be available for all regular full time employees equivalent to twelve (12) days per year, accrued at a rate of eight (8) hours per month cumulative to 150 days for weekly personnel, and six (6) 24-hours work days, accrued at a rate of twelve (12) hours per month, cumulative to a maximum of 90 work days, for shift personnel. Full time employees, upon retirement, voluntary termination or death, who have completed 20 years or more continuous service to the District shall be compensated, or in the case of death their beneficary shall be compensated, for their accrued sick leave of an amount not to exceed 90 day. At year end, the unused sick pay for employees of \$284,427 is recorded as an accrued non-current liability.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Accumulated Vacation and Sick Pay (Continued)

	E	Balance Beginning of Year	Net Increase (Decrease)		Increase End			End	Amount Due Within One Year		
Compensated Absences	\$	341,526	\$	26,423	\$	367,949	\$	83,522			

K. Debt Commitments

In the government-wide financial statements, debt principal payments (if any) of government activities are reported as decreases in the balance of the liability on the Statement of Net Position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid. At year end the District had no debt commitments outstanding.

L. Equity Classifications

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Equity is classified as net position and displayed in three components:

Invested in capital assets - consists of capital assets, net of accumulated depreciation and net of related debt.

Restricted - consists of net assets with constraints placed on their use either by external groups such as creditors, grantors, contributors, or law or regulations of other governments, or laws through constitutional provisions or enabling legislation.

Unrestricted - consists of all other net assets that do not meet the definition of restricted or invested in capital assets.

FUND FINANCIAL STATEMENTS

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either no in spending form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions for outside parties for use for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the District's's Board, which is considered the District's highest level of decision making authority. Formal action includes resolutions and ordinances approved by the Board. Assigned fund balances represent amounts constrained by the District's intent to use them for a specific purpose. Any residual fund balance of the General Fund is reported as unassigned.

In the government-wide financial statement, restricted net assets are legally restricted by outside parties for a specific purpose. Invested in capital assets, net of related debt, represents the Township's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset.

The District does not have a formal policy regarding the flow of funds.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 2 - PROPERTY TAXES

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The taxes attach as an enforceable lien on property on January 1. The owner of real property on January 1 in any year is liable for taxes on the year. The District has a statutory tax rate limit in various operating funds subject to change only by approval of the voters of the District. Also, the District is subject to the Property Tax Extension Limitation Act, which, in general, limits the amount of taxes to be extended to the lesser of 5% or the percentage increase in the consumer price index for the year preceding the levy. Certain bond issue levies and referendum increases are exempt from this limitation.

Property taxes are collected by the DuPage County Collector who remits to the District its share of taxes collected. Taxes levied in one year become payable during the following year in two equal installments, on June 1 and on September 1. Taxes on railroad real property used for transportation purposes are payable in one installment on August 1. The District generally receives the real estate taxes within 30 to 60 days of the due dates.

The tax extension of \$2,224,663 for the year 2012 is based upon an assessed valuation of \$616,225,451. The following are the tax rate limits permitted by Illinois statute and by local referendum and actual rates levied per \$100 of assessed valuation and the extensions produced there from:

Fund and/or purpose	Limit	Rate Ex		Extension
Fire Protection	.4000	.1623	\$	1,001,006
Pension	NONE	.0254		156,658
Pension (Exempt)	NONE	.0016		9,868
Tort Liability Insurance	NONE	.0042		25,904
Worker's Compensation Insurance	NONE	.0042		25,904
Ambulance	.3000	.1622		1,000,389
Audit	.0050	8000.		4,934
TOTALS	NONE	0.3607	\$	2,224,663

NOTE 3 - PERSONAL PROPERTY REPLACEMENT TAX

The Personal Property Replacement Tax represents an additional State of Illinois income tax on corporations(certain utilities), trusts, partnerships, and Subchapter S corporations and a new tax on the invested capital of public utilities providing gas, communications, electrical and waste services.

Revenues are collected by the State of Illinois under the replacement tax and are allocated and paid by the State eight times a year. The replacement tax law provides that monies received should be first applied toward payment of the proportionate share of the pension or retirement obligation which were previously levied on personal property. Remaining allocations are made at the discretion of the Board of Trustees.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 4 - DEPOSITS AND INVESTMENTS

At April 30, 2013, the District had cash and investments on the financial statements consisting of the following:

	Governmental Funds	Fiduciary Funds	Total
Cash and investments	\$ 2,058,144	\$ 3,466,848	\$ 5,524,992

The District maintains a cash and investment pool that is available for use by all funds except the Firefighter's Pension Trust Fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments". The deposits and investments of the Firefighter's Pension Trust Funds are held separately from other funds.

Illinois statute authorizes the District to invest in obligations of the U.S Treasury, U.S. Agencies and banks and savings and loan associations covered by federal depository insurance. The District may also invest in commercial paper of U.S. corporations with assets exceeding \$500,000,000 provided that (a) the obligations are rated with the 3 highest classifications by at least 2 standards rating services and they mature within 180 days from the date of purchase, and (b) no more that 25% of any fund is invested in such obligation at any one time and (c) such purchases do not exceed 10% of the corporation's outstanding obligations.

Investment Policy - Governmental Funds

The District holds money market type investments and deposits with financial institutions, including certificates of deposit. As of April 30, 2013, the carrying amount of the District's deposits for governmental funds totaled \$2,058,744 and the bank balances totaled \$2,114,909. The weighted-average maturity of these investments held by the District is less than one (1) year.

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Safety of principal is the foremost objective of the investment program. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.

Custodial Credit Risk: In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all bank balances in excess of the federal depository insurance, at an amount of not less than 110% of the fair market value of the funds secured. At year-end the entire amount of the governmental fund's bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. At year-end the governmental funds did not hold any investments of this type.

Concentrations: This is a risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not formally address this risk.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 4 - DEPOSITS AND INVESTMENTS (Continued)

Firefighter's Pension Trust Fund - Investment Policy

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Safety of principal is the foremost objective of the investment program. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.

The pension fund holds money market type investments and deposits with financial institutions. As of April 30, 2013, the carrying amount of the fund's deposits totaled \$23,905. The weighted-average maturity of these investments held by the District is less than one (1) year.

As of April 30, 2013, the Pension Fund's investments consisted of the following:

Investment Maturities (in

Investment Type	 Fair Value	Le	ess Than 1	1 to 5	6-10	M	ore than 10
Money Market Mutual Funds	\$ 23,905	\$	23,905	\$ -	\$ -	\$	-
US Treasury notes	615,306		118,481	439,123	57,702		-
US Government Agencies:							
GNMA	14,532		-	-	14,532		-
FFCB	786,871		76,817	361,259	267,426		81,369
FHLMC	112,869		-	-	112,869		-
FHLB	810,680		-	285,573	525,107		-
FNMA	119,271		-	53,198	66,073		-
State & Local Obligations	405,655		15,314	98,172	260,811		31,358
Mutual Funds	 577,759		577,759	 	 -		-
	\$ 3,466,848	\$	812,276	\$ 1,237,325	\$ 1,304,520	\$	112,727

The Pension Fund assumes any callable securities will not be called.

Custodial Credit Risk: In the case of deposits, this is the risk that in the event of a financial institution failure, the District's deposits may not be returned to it. At year-end the entire amount of the pension fund's deposits were covered by collateral, federal depository or equivalent insurance.

Credit Risk: The fund's investment policy addresses the management of credit risk by limiting investments to those allowed by state statutes. At year-end the US Treasury Notes were rated AAA, Government Agencies Securities are rated AAA and State and Local Obligations are rated either AAA, AA and A by Standards & Poor's or Aa1 and Aa2 by Moody's Investors Services. The Certificates of Deposit and Mutual Funds were unrated.

Concentrations: This is a risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy addresses this risk by including allocation guidelines by asset class for fixed income investments and its equity portfolio.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 5 - CAPITAL ASSETS

As of May 1, 2007, records were updated to report the actual capital assets in use, to prospectively report capital assets, and to calculate and report depreciation of governmental type capital assets, historical costs or estimated historical costs if actual costs are not available. Total depreciation expense for governmental activities for the year ended April 30, 2013 was \$170,521. A summary of the changes in capital assets for the year follows.

	April 30, 2012	Additional	Retirement	April 30, 2013

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 6 - RETIREMENT PLANS

The District contributes to the Firefighters' Pension Plan, a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly.

Firefighter's Pension Plan

Plan Description. Sworn fire personnel are covered by the Firefighter's Pension Act. Although this is a single employer pension plan, the defined benefits and employee contribution levels are governed by Illinois State Statute (Chapter 40 ILCS 5/4) and may be amended only by the Illinois legislature. The District accounts for the plan as a pension trust fund, and in accordance with GABS accounts for it as a blended component unit. The Firefighter's Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees hired before January 1, 2011, attaining the age of 50 or more with 20 years or more of creditable service are entitled to receive a monthly retirement benefit of one-half of the monthly salary attached to the rank held on the last day of service, or for a period of one year prior to the last day of service, which ever is greater. The pension shall be inreased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary. Covered employees hired on or after January 1, 2011, attaining the age of 55 with at least 10 years of creditable service are entitles to receive an annual retirement benefit of 2.5% of final average salary for each year of service, with a maximun salary cap of \$106,800 at January 1, 2011. The maximun salary cap increases each year thereafter. The monthly benefits of a Firefighters' officer hired before January 1, 2011, who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first annuversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded thereafter. The monthly pension of a Firefighters' officer hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60, by the lesser of 3% or 1/2 of the consumer price index.

At April 30, 2012 the Firefighter's Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	0
Active Plan Members Vested Nonvested	5 5
Total	10

Fund Policy. Participants contribute a fixed percentage of their base salary to the plans. At April 30, 2013, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest.

The District is required to contribute at an actuarially determined rate (tax levy requirement). The tax levy requirement is determined as the annual contribution necessary to fund the value of benefits expected to accrue during the year (i.e., the normal costs) plus the amount necessary to amortize the unfunded accrued liabilities over a forty (40) year period which commenced in 1993. Effective January 1, 2011, the District's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded, by the year 2040.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 6 - RETIREMENT PLANS

Annual Pension Cost and Net Pension Obligation. For fiscal year ended April 30, 2013, the District's annual cost was \$201,204 for the Firefighter's Pension Plan. The District's actual contribution was \$144,530.

Three year trend information for the Firefighter's Pension Plan (based on the April 30, 2012 actuarial valuation report)

Actual	Annual	Percentage	Net		
Valuation	Pension	of APC	Pension		
Date	ost (APC)	Contributed	Obligation		
04/30/12 04/30/11 04/30/10	\$ 172,134 160,372 118,884	89.20% 67.60% 86.30%	\$	86,787 68,218 16,309	

The pension liability for the Firefighter's Pension Plan as of April 30, 2013 was:

	Арі	ril 30, 2013	April 30, 2012		
Annual Required Contribution	\$	195,129	\$	170,992	
Interest on net pension obligation		6,075		4,775	
Adjustment to annual required contribution				(3,633)

Funded Status and Funding Progress. As of April 30, 2012, the most recent actuarial valuation date, the Firefighter's Pension Plan was 90.8% funded. The actuarial accrued liability for benefits was \$3,449,908 and the actuarial value of assets was \$3,131,857, resulting in an underfunded actuarial accrued liability (UALL) of \$318,051. The covered payroll (annual payroll of active employees covered by the plan) was \$775,230 and the ratio of the UAAL to the covered payroll was 41%. In 2012, the unfunded actuarial accrued liability is being amortized on a level percentage of projected payroll on an closed 21 year basis.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTE 7- COMMON BANK ACCOUNTS

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain their uninvested cash balances in common checking accounts, with accounting records being maintained to show the portion of the common bank account balances attributed to each participating fund.

Winfield, Illinois Notes to the Financial Statements For the Year Ended April 30, 2013

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has purchased commercial insurance from private insurance companies to cover these risks. Risks covered include general liability, workers' compensation, medical and other. Premiums have been recorded as expenditures in appropriate funds. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage during the year ended April 30, 2013.

NOTE 9 - DEFICIT FUND BALANCE

As of April 30, 2013 no funds had a deficit balance.

NOTE 10 - EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUNDS

For the year ended April 30, 2013, none of the District's funds had an excess of actual expenditures over legally enacted budgeted amounts.

NOTE 11 - LEGAL DEBT MARGIN

Assessed Valuation	\$ 616,762,623
Legal Debt Limits - 2.875% of Assessed Valuation	\$ 17,731,925
Outstanding Bond Debt	\$ 0
Legal Debt Margin, April 30, 2013	\$ 17,731,925

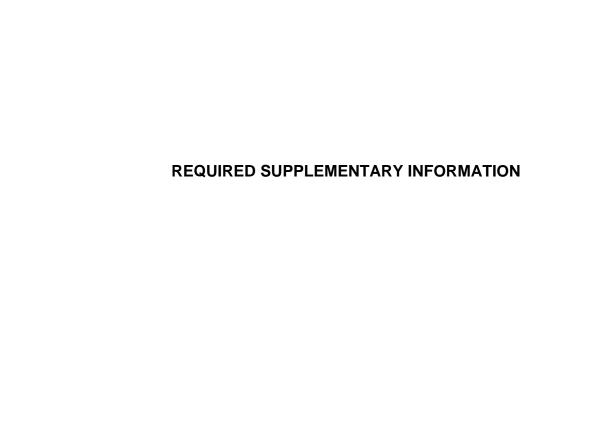

NOTE 12 - TRANSFERS

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statutes or budget requires to expend them in accordance with budgetary authorizations. The interfund transfers during the year ended April 30, 2013 were as follows:

	Transfe	er in	Transfers out	
Governmental funds: Corporate Fund Capital Projects Fund	\$ 123	3,000	123,000	
Total	<u>\$ 123</u>	3,000	123,000	

NOTE 13 - CONTINGENCIES

Per administration, the District is not a defendant in any litigation. With regards to other pending matters, the eventual outcome and the related liability, if any, is not determinable at this time. Accordingly, no provision has been made in the accompanying financial statements for settlement costs.
