

REFLECTIVE 911 ADDRESS SIGNS

Have you ever been worried about how an emergency vehicle could find your house in the dark?

Maybe you have a house set far back from the street, or maybe thick trees or brush hides your house. Do you live in an area without streetlights? Well, the Winfield Fire Protection District is offering you the opportunity to help the Fire Protection District help you.

A reflective address sign would contain the house number and would be placed on your mailbox post. If your mailbox is not in your front yard, we will attach the sign to a metal post near your driveway.

For a \$20.00 fee, we will order your sign and attach the appropriate letters and numbers. Installation is included for **residents of the Winfield Fire Protection District.**

- **There are many areas in the district which are hard to find due to the lack of a visible street address on the house.**
- **If every mailbox had a clearly posted street address on them, it would make it much easier and quicker for the Fire Department to respond to an emergency fire or medical call.**
- **The Fire Chief of the Winfield Fire Protection District strongly encourages the use of a reflective address sign.**
- **This could save precious minutes when arriving on the scene of an emergency call, which makes a difference in a life or death situation.**

For more information, please contact (630) 653-5050.

TO ORDER: Please complete the application below, detach and return with \$20.00 cash or check made payable to the **Winfield Fire Protection District.** Your application can be mailed or dropped off at:

Winfield Fire Protection District, 0N525 County Farm Road, Winfield, IL 60190
